In the News: Opportunistic College Students Leverage Free Campus Electricity to Mine Crypto

Radiflow identified mining malware activity in the network of a major water utility in Europe—the first observation of mining malware in an industrial control system. [Read story](#)

NIS Directive News - NIS Directive Impacts Sea Ports

Port security is so much more than guns, gates and guards. While the maritime industry is surging ahead

with smart ports, its approach to port cybersecurity is dumbfounding, says Edwin Lampert of Marinemec.
